Youtube Clone ⊡
Designed a YouTube clone, a web application that replicates the orignal Youtube basic looks. It includes a user-friendly interface with responsive design. With cross-browser compatibility and responsive design, the YouTube clone provides an intuitive and engaging user experience.
GitHub Link : https://iabhishekbaghel.github.io/Youtube-Clone/

Flipkart Clone ⊡
Designed a Flipkart clone frontend, which is a web application that emulates the user interface and visual design of the original Flipkart e-commerce platform. The clone features a responsive and intuitive interface, allowing users to easily navigate and browse through various product categories. It includes functionalities such as product listing, detailed product pages, and a shopping cart .
